

Multifunctional premium-class compact 2-way system. The coaxial configuration in combination with a carefully designed large-area horn ensures absolutely constant response even off the main axis. Highpower Neodym drivers and long-excursion coils provide high efficiency and reduced distortion. Nine M10 threaded mounting points are available to mount MultiRigg hardware and other accessories for installation or mobile applications. The integrated digital amplifier technology provides 1500 / 400 W AES and DSP control. A range of factory-configured presets and volume settings can be selected.
